Training advisory

Benefits

In the context that companies are to maintain and develop in a competitive environment, it is essential for the managers to understand financial information, especially in profit assessment, cost management and cash flow optimization. Decisions made without relevant financial knowledge may lead to bad investing choices, inefficient resources employment, profit reduction (or even loss), that negatively affect company income and shareholders' benefit.

With the aim to provide financial knowledge and ability to evaluate financial information, after the workshop, participant would be able to:

- Understand good practice in managing of revenue, costs and cash flow from business operation, in order to improve the profit
- Using financial knowledge for better decision-making in operation activities

The workshop will provide the fundamental accounting and finance knowledge, including necessary financial managing tools for the decision-making process. The workshop's content is carefully collected to convey important knowledge in a concise manner, hence participants can acquire key knowledge of each subject in a short period of time. Practical examples will be provided by the expert team with years of experience to enhance the applicatory attribute of the workshop. Variety of visualization tools, including video, board game and stimulation activities will be utilized to effectively assist the non-financial professionals in understanding the complicated contents, as well as to provide enjoyable experience for participants.

Objective

To increase knowledge and awareness of key financial topics and issues in participants, in order to enhance their ability of using the financial information to make better short and long term decisions.

Who should join?

- Directors
- Managers
- Specialists need to use financial information for work

Workshop does not require participants to have the professional knowledge in finance and accounting.

Workshop leaders

(Every workshop will have at least two leaders, depends on workshop schedule and content)

Mai Hanh Levitt
Director
Management Consulting

Mai Hanh conducted years of experience as working for listed and private international organizations, as well as being leader in all the activities related to Finance and Accounting. Her professional experience crosses a variety of industries including Oil and Gas, Aerospace, Entertainment, Consumer Products, Automotive, Telecommunication and Horticulture.

Mai-Hanh delivers organizational efficiencies and financial savings to multinational companies experiencing major strategic changes (pre-divestiture, post-acquisition, pre and post bankruptcy, general financial weakness including budgeting, planning and forecasting, fast close and smart close, management reporting and audit failings). She achieves results by executing robust business and organizational models enabling near term and sustained profitability.

Nguyen Thi Tuyet Hanh
Senior Manager
Management Consulting

Tuyet Hanh has more than ten years working experience in accounting and finance and a member of CPA Australia, Tuyet Hanh brings strong cross-border and multicultural working experience with different multinational companies in Australia and Viet Nam. She has professional experience crosses several industries, such as telecommunication, manufacturing, education.

Tuyet Hanh reviewed and assessed the adequacy and effectiveness of current management reports in order to design and implement the management reporting and budgeting processes for a leading porcelain and ceramic producer in Vietnam. She also reviewed and upgraded the whole planning and assessment budgeting system, cash flow forecast for a leading telecommunication company in Vietnam. Before joining PwC, Tuyet Hanh was a lecturer with 6 years experience specializing in accounting at RMIT Vietnam university.

Bopha Sem
Senior Manager
Management Consulting

Bopha has more than 15 years of accounting and finance experience in multinational companies and service companies operating in Europe, Asia, Africa and CIS countries. Bopha has extensive exposure to the retail, hospitality, distribution and trading industries. Her strengths are in controlling, management reporting, process improvement and stakeholder guidance in changing with complex environments.

Bopha's background spans over following roles: regional project management, playing a lead role in the roll-out and implementation of a global ERP system, controlling management reporting of company's worldwide and managing accounting departments of several multi-national companies. She also has in-depth knowledge of various ERP systems (SAP, Oracle, PeopleSoft, Khalix, Sage, Epicor)
